Town of North Kingstown, RI

Annual Comment on North Kingstown

Issuer Profile

The Town of North Kingstown is located in Washington County, Rhode Island, approximately 20 miles south of Providence. The county has a population of 126,060 and a moderate population density of 379 people per square mile. The county's median family income is \$107,636 (1st quartile) and the May 2021 unemployment rate was 4.1% (2nd quartile) ². The largest industry sectors that drive the local economy are health services, manufacturing, and retail trade.

Credit Overview

The credit position for North Kingstown is very good, and its Aa2 rating slightly exceeds the US cities median of Aa3. Notable credit factors include a strong wealth and income profile, a solid tax base and a satisfactory financial position. It also reflects a small debt burden and a mid-ranged pension liability.

Economy and Tax Base: Overall, the town has a very healthy economy and tax base, which are slightly favorable when compared to its Aa2 rating. North Kingstown's full value per capita (\$180,629) is much stronger than the US median, and increased markedly between 2016 and 2020. Moreover, the median family income equals a significant 147.5% of the US level. On the other hand, the total full value (\$4.7 billion) is above other Moody's-rated cities nationwide.

Finances: The town's financial position is satisfactory and stable. It is largely aligned in comparison to the assigned rating of Aa2. North Kingstown's cash balance as a percent of operating revenues (15.5%) is below the US median, but increased between 2016 and 2020. Additionally, the fund balance as a percent of operating revenues (15.3%) is lower than the US median.

Debt and Pensions: The debt burden of the town is extremely small. The net direct debt to full value (0.7%) is slightly under other Moody's-rated cities nationwide, and declined from 2016 to 2020. The Moody's-adjusted net pension liability to operating revenues (1.7x) is average and on par with the US median.

Management and Governance: Rhode Island cities have an institutional framework score ³ of "Aa", which is strong. Increases in property taxes, the sector's major revenue source, are subject to a 4% cap unless the municipality qualifies for certain exemptions. The property tax cap can be overridden at the local level. The 4% cap provides for moderate revenue-raising ability. Unpredictable revenue fluctuations tend to be minor, or under 5% annually. Across the sector, fixed and mandated costs are generally greater than 25% of expenditures. Continuing contracts legislation requires local governments to adhere to terms of expired

collective bargaining agreements until a new CBA is adopted, however the law does not limit layoffs. Unpredictable expenditure fluctuations tend to be minor, under 5% annually.

Endnotes

- 1 The rating referenced in this report is the issuer's General Obligation (GO) rating or its highest public rating that is GO-related. A GO bond is generally backed by the full faith and credit pledge and total taxing power of the issuer. GO-related securities include general obligation limited tax, annual appropriation, lease revenue, non-ad valorem, and moral obligation debt. The referenced ratings reflect the government's underlying credit quality without regard to state guarantees, enhancement programs or bond insurance.
 - 2 The demographic data presented, including population, population density, per capita personal income and unemployment rate are derived from the most recently available US government databases. Population, population density and per capita personal income come from the American Community Survey while the unemployment rate comes from the Bureau of Labor Statistics.
- The largest industry sectors are derived from the Bureau of Economic Analysis. Moody's allocated the per capita personal income data and unemployment data for all counties in the US census into quartiles. The quartiles are ordered from strongest-to-weakest from a credit perspective: the highest per capita personal income quartile is first quartile, and the lowest unemployment rate is first quartile.
- 3 The institutional framework score assesses a municipality's legal ability to match revenues with expenditures based on its constitutionally and legislatively conferred powers and responsibilities. See [US Local Government General Obligation Debt \(July 2020\)](#) methodology report for more details.
 - 4 For definitions of the metrics in the Key Indicators Table, [US Local Government General Obligation Methodology and Scorecard User Guide \(July 2014\)](#). Metrics represented as N/A indicate the data were not available at the time of publication.
 - 5 The medians come from our most recently published local government medians report, [Medians - Tax base and revenue increases outpace growth of long-term liabilities \(May 2021\)](#) which is available on Moodys.com. The medians presented here are based on the key metrics outlined in Moody's GO methodology and the associated scorecard.

To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors and suppliers disclaim liability for any direct or compensatory losses or damages caused to any person or entity, including but not limited to by any negligence (but excluding fraud, willful misconduct or any other type of liability that, for the avoidance of doubt, by law cannot be excluded) on the part of, or any contingency within or beyond the control of, MOODY'S or any of its directors, officers, employees, agents, representatives, licensors or suppliers, arising from or in connection with the information contained herein or the use of or inability to use any such information.

NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE ACCURACY, TIMELINESS, COMPLETENESS, MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OF ANY CREDIT RATING, ASSESSMENT, OTHER OPINION OR INFORMATION IS GIVEN OR MADE BY MOODY'S IN ANY FORM OR MANNER WHATSOEVER.

Moody's Investors Service, Inc., a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by Moody's Investors Service, Inc. have, prior to assignment of any credit rating, agreed to pay to Moody's Investors Service, Inc. for credit ratings opinions and services rendered by it fees ranging from \$1,000 to approximately \$5,000,000. MCO and Moody's Investors Service also maintain policies and procedures to address the independence of Moody's Investors Service credit ratings and credit rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold credit ratings from Moody's Investors Service and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at www.moody.com under the heading "Investor Relations — Corporate Governance — Director and Shareholder Affiliation Policy."

Additional terms for Australia only: Any publication into Australia of this document is pursuant to the Australian Financial Services License of MOODY'S affiliate, Moody's Investors Service Pty Limited ABN 61 003 399 657 AFSL 336969 and/or Moody's Analytics Australia Pty Ltd ABN 94 105 136 972 AFSL 383569 (as applicable). This document is intended to be provided only to "wholesale clients" within the meaning of section 761G of the Corporations Act 2001. By continuing to access this document from within Australia, you represent to MOODY'S that you are, or are accessing the document as a representative of, a "wholesale client" and that neither you nor the entity you represent will directly or indirectly disseminate this document or its contents to "retail clients" within the meaning of section 761G of the Corporations Act 2001. MOODY'S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail investors.

Additional terms for Japan only: Moody's Japan K.K. ("MJKK") is a wholly-owned credit rating agency subsidiary of Moody's Group Japan G.K., which is wholly-owned by Moody's Overseas Holdings Inc., a wholly-owned subsidiary of MCO. Moody's SF Japan K.K. ("MSFJ") is a wholly-owned credit rating agency subsidiary of MJKK. MSFJ is not a Nationally Recognized Statistical Rating Organization ("NRSRO"). Therefore, credit ratings assigned by MSFJ are Non-NRSRO Credit Ratings. Non-NRSRO Credit Ratings are assigned by an entity that is not a NRSRO and, consequently, the rated obligation will not qualify for certain types of treatment under U.S. laws. MJKK and MSFJ are credit rating agencies registered with the Japan Financial Services Agency and their registration numbers are FSA Commissioner (Ratings) No. 2 and 3 respectively.

MJKK or MSFJ (as applicable) hereby disclose that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MJKK or MSFJ (as applicable) have, prior to assignment of any credit rating, agreed to pay to MJKK or MSFJ (as applicable) for credit ratings opinions and services rendered by it fees ranging from JPY125,000 to approximately JPY550,000,000.

MJKK and MSFJ also maintain policies and procedures to address Japanese regulatory requirements.

Rating Action

S&P Global Ratings assigned its 'AA+' long-term rating to the Rhode Island Health & Educational Building Corp.'s \$8.0 million series 2021A and \$4.5 million series 2021B revenue bonds, issued for the Town of North Kingstown. At the same time, S&P Global Ratings assigned its 'AA+' long term rating to North Kingstown's \$7.6 million series 2021A general obligation (GO) bonds. In addition, S&P Global Ratings affirmed its 'AA+' long-term rating on the corporation's existing debt, also issued for the town, and affirmed its 'AA+' long-term rating on the town's existing GO debt. The outlook is stable.

Subject to the master indenture, North Kingstown's full-faith-and-credit GO pledge secures the revenue bonds. The town's full-faith-and-credit GO pledge also secures the GO bonds.

Proceeds of the corporation's series 2021A bonds will be used to finance capital projects on the town's schools. The series 2021B bonds will be used to refinance the outstanding series 2013A bonds for interest-rate savings. North Kingstown's series 2021A bonds will be used to finance capital projects in the town.

Credit overview

The 'AA+' rating on the town is supported by the continued development with the location of General Dynamic Electric Boat (EB) facilities and recent expansion due to sizable federal contracts, ongoing residential development (including the sale of a former elementary school to add the property to the tax rolls), and maintenance of growing reserves based on two consecutive years of surplus, with a third year of surplus expected for fiscal 2021. However, North Kingstown continues to face long-term pressures from low-funded pension systems and an unfunded other

postemployment benefits (OPEB) liability. We expect that continued improvements regarding budgetary practices and a growing economy will help to offset retirement cost growth from the current baseline in the short term, but they could present an increasing budgetary pressure in the long term should economic growth stall or if actuarial assumptions are not met. The stable outlook reflects our expectation that management will produce strong budgetary performance annually, while maintaining very strong liquidity and reserves. While our outlooks are typically for two years, we believe there remain risks associated with the continuation of the COVID-19 pandemic and recent recession over the next six-to-12 months.

The long-term rating reflects our opinion of North Kingstown's:

- Very strong economy, with access to a broad and diverse metropolitan statistical area (MSA);
- Strong management, with good financial policies and practices under our Financial Management Assessment (FMA) methodology;
- Adequate budgetary performance, with operating surpluses in the general fund and at the total governmental fund level in fiscal 2020;
- Very strong budgetary flexibility, with an available fund balance in fiscal 2020 of 21% of operating expenditures;
- Very strong liquidity, with total government available cash at 25.3% of total governmental fund expenditures and 6.2x governmental debt service, and access to external liquidity we consider strong;
- Strong debt and contingent liability profile, with debt service carrying charges at 4.1% of expenditures and net direct debt that is 54.6% of total governmental fund revenue, as well as low overall net debt at less than 3.0% of market value and rapid amortization, with 70.3% of debt scheduled to be retired in 10 years, but a large pension and OPEB obligation and the lack of a plan to sufficiently address the obligation; and
- Strong institutional framework score.

Environmental, social, and governance factors

Our rating incorporates our view regarding the health and safety risks posed by the COVID-19 pandemic. Absent the implications of COVID-19, we consider North Kingstown's social risks in line with those of the sector. The town's location along the eastern seaboard leads to elevated environmental concerns from flooding and sea level rise; however, the town has adopted a hazard mitigation plan and continues to work with both state and federal agencies to address environmental resiliency risks. While governance is in line with the sector as a whole, we recognize North Kingstown's sizable pension and OPEB obligations as a risk factor.

Stable Outlook

Downside scenario

While not anticipated during our outlook period, we could lower the rating or revise the outlook if budgetary performance declines, leading to a reduction in reserves to levels that we no longer consider commensurate with peers at this rating level.

Upside scenario

Should North Kingstown's economic metrics improve commensurate with those of higher-rated peers, in addition to attaining significant reductions in the town's unfunded pension and OPEB liabilities, along with continued incorporation of new financial management policies and practices and maintain strong reserve levels, we could raise the rating.

Credit Opinion**Very strong economy**

We consider North Kingstown's economy very strong. The town, with an estimated population of 26,320, is in Washington County in the Providence, R.I.-Warwick, Mass. MSA, which we consider to be broad and diverse. The town has a projected per capita effective buying income of 137% of the national level and per capita market value of \$181,850. Overall, the town's market value grew by 1.0% over the past year to \$4.8 billion in 2021. The county unemployment rate was 3.1% in 2019.

North Kingstown is 22 miles south of Providence, along the Narragansett Bay. The town is primarily residential, accounting for nearly 76% of the tax base. It continues to see growth in residential developments, including a new Reynolds Farm development that will include about 645 new housing units, in addition to the closing of a sale of the former Wickford Elementary School to be redeveloped into a multifamily property that will go on to the tax rolls.

While primarily residential, the town maintains a strong and developing commercial industrial park, anchored by the Quonset Business Park. The business park is home to more than 200 businesses, employing more than 11,000 individuals. It also maintains access to the Port of Davisville, one of the largest auto importers in North America. North Kingstown's employer base remains strong, led by General Dynamics EB, a submarine manufacturer, with just under 3,400 employees. EB is continuing to expand in the region, with the recent awarding of a new \$9.5 billion contract to service the US Navy's Columbia class submarines in addition to a previous award of a \$2 billion federal contract to modify and retrofit submarines. These continued developments are expected to add to employee levels at the Quonset Point facility and help EB remain a stable presence in the town. North Kingstown receives nearly \$3 million in payments in lieu of taxes (PILOT) from the industrial park, which could increase as further development comes online.

With the continued commercial and residential development, the town is also focused on improving transportation options, including a new partnership between the Rhode Island Public Transit Authority and the Quonset Development Corp. to expand bus service into the Quonset Business Park. Management also continues to focus on incorporating additional new development around Wickford Junction, the southern terminus of the Massachusetts Bay Transportation Authority commuter rail, which provides rail access to Providence and Boston. With continued development, the tax base remains strong, increasing 1.2% on average annually over the past five years.

Unemployment levels in the town continue to mirror the national trends. With the onset of the pandemic, the county unemployment levels spiked to 15.9% in April 2020; however, continued to temper through the year to 7.0%, as of preliminary estimates for December 2020.

Strong management

We view the town's management as strong, with good financial policies and practices under our FMA methodology, indicating financial practices exist in most areas, but that governance officials might not formalize or monitor all of them on a regular basis.

North Kingstown's management team uses conservative budget assumptions, rooted in multiple years of actual results, which we expect will continue to improve. It provides monthly budget-to-actual updates to the town council. The town has a robust, six-year capital improvement plan (CIP) that identifies and prioritizes projects with their intended funding sources. North Kingstown adheres to state limitations on investments. The formal debt policy outlines planning and monitoring procedures and sets limits on total debt and amortization periods. The formal reserve policy requires the town to maintain 8%-15% of general fund expenditures in unassigned reserves, with a target balance of 10%. Should the new policies result in continued strong budgetary performance with demonstrated integration of the financial plan into the budgeting process, this could improve our view of the town's management profile.

Adequate budgetary performance

North Kingstown's budgetary performance is adequate in our opinion. The town had operating surpluses of 3.9% of expenditures in the general fund and of 2.5% across all governmental funds in fiscal 2020.

For our analysis, our view of the general fund includes the school department fund, which is separate in the town's audit. This is common in the state, but as the department relies heavily on appropriations from the general fund, we consider it alongside general government operations.

The fiscal 2020 performance remained stable, with the town reporting a second consecutive year of surplus. Management noted the surplus performance for the fiscal year was driven by favorable receipts of police detail revenues and interest income during the period. The school operations also contributed to the performance, with savings from substitutes and transportation costs from the transition to remote learning as a result of the pandemic.

The town's primary source of revenue is property taxes, accounting for over 76% of the combined general fund and school fund annual revenues. Collections continue to remain stable, with North Kingstown collecting 97% of the levy annually. The town saw stable collections in light of the pandemic, with the majority of taxes paid through escrow agents. North Kingstown also relies on state aid annually for the schools, accounting for approximately 11% of annual revenues. We will continue to monitor for changes to the state's funding levels for education. Despite North Kingstown's surplus performance for fiscal 2020, our assessment takes into account potential downside risks from the pandemic and related pressures (for more information, see "Staying Home For The Holidays," published Dec. 2, 2020 on RatingsDirect).

North Kingstown continued to maintain conservative budgeting practices using a zero-based budgeting approach. The town approved a \$116.6 million fiscal 2021 budget or approximately 4% higher than fiscal 2020. North Kingstown elected to keep the tax rate stable from fiscal 2020 and additionally budgeted additional revenues generated from PILOTs resulting from the expansion of EB. The town also reduced economically sensitive revenues due to pandemic-related impacts, including a 23% reduction in hotel tax collections and a 4.43% decrease in meals tax collections. North Kingstown also looked to include a use of fund balance of approximately \$1 million split evenly across the general fund and the school fund. However, the town reports budget-to-actual results as of the second

quarter are trending positive compared to budget with North Kingstown anticipating a third consecutive surplus for the year.

As the town looks forward to the fiscal 2022 budget process, it anticipates remaining conservative in its practices, looking at reduction in both state aid levels and continuing to budget for softness in the hotel and meals tax revenues. In addition, North Kingstown has upcoming contract negotiations with the police and the municipal workers unions for extensions that could impact the town's expenses; however, we will continue to monitor North Kingstown's progress in the negotiations and potential effect on the town's annual expenses.

Very strong budgetary flexibility

North Kingstown's budgetary flexibility is very strong, in our view, with an available fund balance in fiscal 2020 of 21% of operating expenditures, or \$22.4 million.

We adjust the available fund balance to include capital reserves held in nonmajor governmental funds, but which management confirms could be made available should the need arise. With continued surpluses, North Kingstown's fund balance as a percentage of expenditures have improved to over 15% for the past two fiscal years. With no anticipated use of fund balance based on strong budget to actual performance for fiscal 2021, we expect that the town will maintain reserves at levels that we consider very strong.

Very strong liquidity

In our opinion, North Kingstown's liquidity is very strong, with total government available cash at 25.3% of total governmental fund expenditures and 6.2x governmental debt service in 2020. In our view, the town has strong access to external liquidity if necessary.

The town has maintained very strong cash balances in each of the past three fiscal years. We believe that North Kingstown's frequent debt issuances, including GO bonds and bond anticipation notes, demonstrate the town's strong access to external liquidity. The town authorized the ability to issue tax anticipation notes in fiscal 2021; however, does not anticipate needing to use that capacity. We do not consider the town's investments aggressive. In addition, North Kingstown does not have any variable-rate or direct-purchase debt outstanding. We do not anticipate any strain on the town's liquidity profile and expect it will remain very strong.

Strong debt and contingent liability profile

In our view, North Kingstown's debt and contingent liability profile is strong. Total governmental fund debt service is 4.1% of total governmental fund expenditures, and net direct debt is 54.6% of total governmental fund revenue. Overall net debt is low at 1.3% of market value, and approximately 70.3% of the direct debt is scheduled to be repaid within 10 years, which are in our view positive credit factors.

With these issuances, the town will maintain \$60.6 million in long-term debt, \$4.6 million of which we to consider to be self-supported. North Kingstown maintains limited additional debt plans in the near term.

Pension and other postemployment benefits

- While not immediate, we view pension and OPEB liabilities as a source of credit pressure for North Kingstown.
- Because the town's pension actuarially determined contribution (ADC) is built on what we view as weak assumptions and methodologies, we believe it increases the risk of unexpected contribution escalations.

Summary: Rhode Island Health & Educational Building Corp. North Kingstown Town; General Obligation

- Although OPEB liabilities are funded on a pay-as-you-go basis, which, given claims volatility as well as medical cost and demographic trends, is likely to lead to escalating costs, the town has exercised flexibility in altering OPEB benefits, which we view as a potential mitigant to the escalating costs.

North Kingstown participates in the following plans as of June 30, 2020:

- Municipal Employees' Retirement System (MERS): The MERS plan provides retirement plans for three categories: general, 73.27% funded, with the town's proportionate share of the net pension liability equal to \$18.5 million; police, 68.74% funded, with the town's proportionate share of the net pension liability equal to \$10.8 million; and fire, 70.45% funded, with the town's proportionate share of the net pension liability equal to \$14.8 million.
- Employees' Retirement System (ERS): 54.6% funded, with the town's proportionate share of the net pension liability of equal to \$53.4 million.
- A single-employer, defined-benefit health care plan for retirees: town, 7.81% funded with an OPEB liability of about \$18.3 million; and school, 0% funded with an OPEB liability of about \$579,364.

The town's combined required pension and actual OPEB contributions totaled 9.5% of total governmental fund expenditures in fiscal 2020. Of that amount, 8.1% represented required contributions to pension obligations and 1.3% represented OPEB payments.

North Kingstown employees are covered by one of two plans: the MERS or the ERS. MERS is an agent, cost-sharing, multiple-employer public employee retirement system administered by the state. The plan has three components, covering municipal, police, and fire employees separately. ERS is a cost-sharing, multiple-employer plan covering the town's teachers and administered by the state. The state covers 40% of the actuarial determined contribution while the town is liable for 60%. In our view, a discount rate of 7.0% for both plans remains above our guideline of 6.0% and could lead to contribution volatility. Although North Kingstown meets 100% of pension ADCs, contributions fell short of both static funding and minimal funding progress for MERS and below minimal funding progress for ERS.

The town also provides OPEB for retirees with health and life insurance benefits. Over the past three years, the liability has continued to decline to the \$18.3 million reported for fiscal 2020 from \$24.8 million in fiscal 2018. North Kingstown established an OPEB trust in 2018 to support the liability and continues to contribute with regular transfers included in the budget as a line-item expenditure. In 2020, the line-item total was just under \$2.0 million; however, the town contributed \$1.5 million or only 78% of the contribution; 2020 represented a second consecutive year that the town did not meet the ADC for the OPEB trust. However, the town has made adjustments to non-union benefits that will help provide an anticipated \$2 million reduction in the liability, which we view as a credit positive.

Although the costs remain manageable, given the size of the total unfunded liability for pension and OPEB obligations relative to the operating budget, we believe costs will continue to pressure the budget over the next several years; however, if management continues to make measured progress in reducing the liabilities we could revise our view of the town's pension and OPEB obligations.

Strong institutional framework

The institutional framework score for Rhode Island municipalities is strong.
